ADDITIONAL INFORMATION

¹ Responsible scheme with the protection of your deposit

Your deposit is covered by a statutory scheme known officially as the deposit guarantee scheme. In case the deposits opened at the credit institution become unavailable, the deposits are covered within the coverage limit established at the equivalent in RON of 100.000 EUR.

² The general coverage limit

In the event that a deposit is unavailable because a credit institution is unable to comply with its payment obligations according to the applicable contractual and legal conditions, the compensations shall be paid to the depositors according to the deposit guarantee scheme. Every compensation has a maximum coverage limit established at the equivalent in RON of 100.000 EUR per credit institution. This means that all deposits opened at the same credit institution are aggregated in order to establish whether and how they match the coverage limit. For example, if a depositor has a saving account of 90.000 EUR and a current account of 20.000 EUR, such depositor will only receive the equivalent in RON of 100.000 EUR.

In certain cases, the deposits are covered even beyond the equivalent in RON of 100.000 EUR for a period of 12 months from the date when the amount was received into the account of the respective credit institution or from the date when the deposits may be legally transferred to another credit institution, as follows: i) deposits resulting from real estate transactions involving immovable assets with housing destination; ii) deposits resulting from the event of retirement, dismissal, invalidity or death situation of the depositor; iii) deposits resulting from the collection of insurance claims or compensation for damages generated by criminal activities or unfair convictions.

Further information is available on www.fgdb.ro.

³ Coverage limit applicable to shared accounts

In case of shared accounts, the coverage limit established at the equivalent in RON of 100.000 EUR shall apply separately, for every depositor. The deposits existing in an account whose beneficiaries are two or more persons who are members of a profit-generating association, partnership or group of the same sort, without a legal personality, are aggregated and treated as if they were placed by one single depositor, for the calculation of the limit of 100.000 EUR.

⁴ The payment of compensations

The responsible deposit guarantee scheme is The Bank Deposit Guarantee Fund, 3rd Negru Voda street, building A3, 2nd floor, Bucharest, postal code 030774, phone: 0314 232 882; 021 326 6020

E-mail: office@fgdb.ro / comunicare@fgdb.ro.

Based on this scheme, you will have access to the deserved compensations (up to the equivalent in RON of 100.000 EUR) within 7 business days from the date when the deposits became unavailable. If the compensation is not at your disposal within this time frame, then we recommend that you contact the deposit guarantee scheme, because the period in which you can claim the compensation payment may be limited. Further information is available on <http://www.fgdb.ro/>

OTHER ADDITIONAL INFORMATION

The level of the compensation shall be calculated by deducting from the total eligible deposits held by the guaranteed depositor with the respective credit institution on the date when the deposits became unavailable the total value of the debts held by the guaranteed depositor with the respective credit institution on the same day.
